EMERGENCY BURN CARE

What is Burnshield?

Burnshield is a remarkable Sterile, Hydrogel (wet) product that provides the essential physical protection urgently needed when someone is accidentally burnt.

Suitable for Flame, Hot Water / Steam, Chemical, Radiation and Electrical Burns.

Key features of Burnshield:

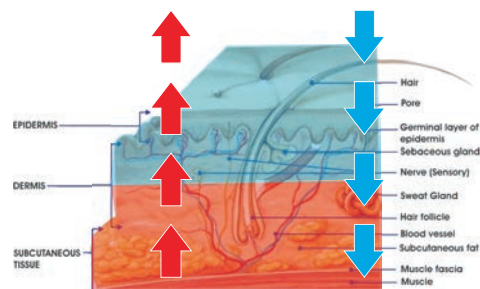

- Safe for use on children.
- Highly effective within the first 24 hour period.
- Absorbs and dissipates heat - minimises burn damage.
- Cools and soothes - pain relief and shock reduction.
- Natural anti-bacterial - reduce infection.
- Dressing provides covering - keeps burn area moist & clean.
- Hydrogel is Clear - easy to assess wound.
- Non -adherent - will not adhere to wound.
- Non -Toxic - no reaction if ingested
- Non -Irritant - no adverse reaction
- Products are sterilized by gamma irradiation.
- Burnshield has a Five-year shelf life from date of manufacture

Own Branding Offer:

With the minimum order quantities being easily achievable for many of our products, this service can be a perfect option to promote your own brand. We manufacture to your requirements and with our in house design department, we can guarantee fast and efficient service.

Burnshield products are ISO, TGA, CE accredited and FDA approved to market.

BURNSHIELD ACTION

- Heat is absorbed and dissipated within the tissue due to gel structure
- Cooling is effected by heat transfer and evaporation
- High water content in gel promotes rapid cooling resulting in minimizing Skin damage

How is Burnshield applied?

DRESSING APPLICATION - 4 STEP PROCESS

Open

Remove

Apply

Secure with non - adherent bandage

Burnshield Premium products are easy to apply.

Simply **open** the sterile package, **remove** the dressing, **apply** it over the wound, and **secure** with a non - adherent bandage.

HYDROGEL APPLICATION

Apply liberally

Secure with non-adherent bandage

Apply Hydrogel liberally to the burn area and secure with plaster or non-adherent bandage.

EMERGENCY BURNCARE

Material selected for Burnshield:

wool

foam

cotton

MATERIAL

- **Wool** - The Blanket is made from 100% wool woven into a specially designed interlinking cellular structure for maximum effectiveness and heat dissipation.
- **Foam** - The open-cell Foam Dressing is designed for optimal heat dissipation and gel retention. It conforms to wound area and acts as a natural covering.
- **Cotton** - The Cotton BurnVest and Contour Dressing are manufactured from fibreless cotton for comfort, maximum gel retention and allows for heat dissipation.

Burnshield Dressings (Foam Base)

Burnshield is made from top quality materials. The Foam Dressing is designed for optimal heat dissipation. It conforms to the wound area, and is made from a fibreless elastic open-cell foam sheeting

EMERGENCY BURNCARE

Burnshield Paediatric BurnVest (Cotton Base)

Fifty percent of all burns injuries occur in the home, and the vast majority of the victims are young children. Burnshield has introduced the BurnVest to its range of products. This unique product is effective in treating severe upper body burns on children from six months to five years old. Burnshield Burnvest is the result of two years of development to determine the best fit and design for children. This unique product has been tested and supported by the Paediatric Burns Unit at the Chris Hani Baragwanath Hospital. The Cotton BurnVest is manufactured from fibreless cotton for comfort and for maximum gel retention.

6-12 Months - REF: 881080

24-36 Months - REF: 881085

4-5 Years - REF: 881090

BurnVest

The Sterile BurnVest will ensure the following:

- Ease of application - by sliding the arms through the open sleeve area
- Pain relief and halting of the burn process - due to the cooling action of Burnshield gel and heat dissipation
- Cotton base material- allows for flexibility, no rough material to hurt the patient and gel retention
- Reduced number of nurses attending the patient
- Impregnated with the successful and stable Burnshield Hydrogel

EMERGENCY BURNCARE

Burnshield Trauma Blankets

BLANKETS

EMERGENCY BURN CARE

Burnshield Sterile Trauma Blankets

Burnshield's original ground-breaking product, Fire Trauma Blanket, was developed in conjunction with the Wool Board and the CSIR for the emergency services market. This versatile application is used as protection for rescue workers entering or leaving a fire area. It can also be used to extinguish flames on a burn victim and, if necessary, be used as a large dressing, providing instant pain relief and beginning the healing process while victims are being transported to emergency care units. The Blanket is made from 100% wool and is woven into a specially designed interlinking cellular structure for maximum effectiveness. The flexible shoulder barrel-bag allows for hands free portability and storage.

BLANKETS

Suitable for:

- Extinguish flame
- Large dressing
- Entry or Exit from fire

key features of Wool Dressing:

- 100% wool - heat protection
- Interlinking cellular structure - gel retention
- No loose fibres

EMERGENCY BURN CARE

Burnshield Retail Market

As **fifty percent** of all burn wounds happen in the home, Burnshield Emergency Burn Care products are an essential component of any home First Aid Kit. Burnshield premium products are safe to use on children and can be used on facial burns. Burnshield has designed various retail products suited for every need from home to travel to outdoors.

Hydrogel

Suitable For the treatment of Sun Burn, Superficial / Partial Thickness Burns, rehydration of dressings and difficult to get -to areas. Burnshield Hydrogel helps prevent infection and the high water content in the gel promotes rapid cooling resulting in minimising skin damage.

Key ingredients of Burnshield Hydrogel:

- Melaleuca Alt. (Tea Tree) Oil
- Water (96%)
- Gelling Agent

key features of Burnshield Hydrogel:

- Sterile
- Absorbs and dissipates heat - minimises burn damage
- Cooling - pain relief and shock reduction
- Clear - easy to assess wound
- Non-stick: will not adhere to wound
- Natural anti-bacterial - reduce infection
- Non Toxic
- Non irritant

Available in:

- Spray Bottle - 125ml, 75ml
- Squeeze Bottle - 50ml
- Tube - 25ml, 10ml
- Sachet - 3.5ml
